Libraries/Frameworks	React Native Paper, React Native Elements, React Native Maps, React Native Calendar, Lottie
Tools / Platforms	VS Code, Android Studios, Xcode, React Native CLI, MobX

PROJECTS / OPEN-SOURCE

LYNX | Link — React Native, JavaScript

Lynx is a centralized platform for all Councils, Clubs, Student Bodies, and Fests to communicate directly to NITTians without the clutter present in Social Media, enabling effective and immediate communication. It has 1,000+ downloads on play store and the app is also released on app store.

SUPERHERO MULTIVERSE | Link — Java, Android Studio

This project displays all the information about all the superheroes in the multiverse. The app collects data from API and then displays in the app.

GUESS THE DAY | Link — Java, Android Studios

This is a Quiz App that shows a random date and asks the user to guess the day of the week of the date. The question is a random date, and each question has 4 options(days) for the user to choose from.

COLOR TILES | Link — HTML, CSS, JavaScript

It is a game in which a smaller square pattern should be matched in the centre of a given square pattern. Given a 5x5 grid made with tiles of 6 different colors, the goal is to try and make this 3x3 grid in its center. Out of the 25 tiles, one will be empty which can be swapped with any of the four adjacent tiles. There are 2 modes in this game. Easy mode: 3x3 inner grid and 5x5 outer grid. Normal mode: 4x4 inner grid and 6x6 outer grid. Lesser the number of clicks used, the better will be the performance. Lesser the time taken,better will be the performance.

ORIENTATION'21 | Link — React Native, JavaScript

Orientation '21 is all about the events and affairs that will ease a fresher's way into the campus. What better way to have everything a student needs to know about it in your fingertips than an app. The Orientation '21 app will cater to all the needs a student has regarding the programme. It has the flow and timetable of all the happenings and links to take the user directly to the event with just a single click.
